

**Algorithm 1.** Which way does the bunny have to go to get to the carrot?

Put the arrow in the square on the right.

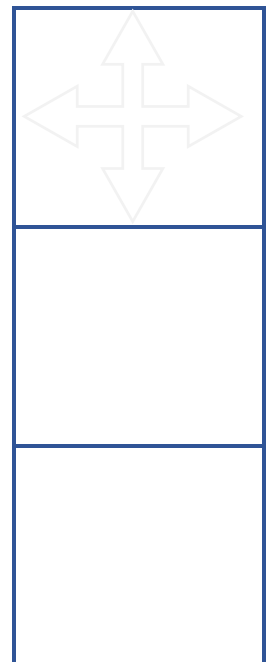

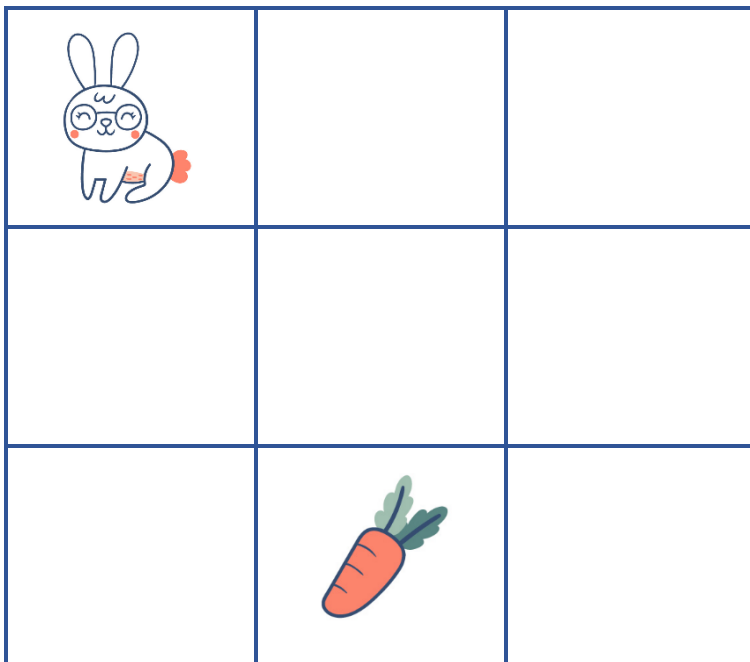

**Algorithm 2.** Now the bunny needs to make 2 steps, which way?

Put the arrows in the squares on the right.

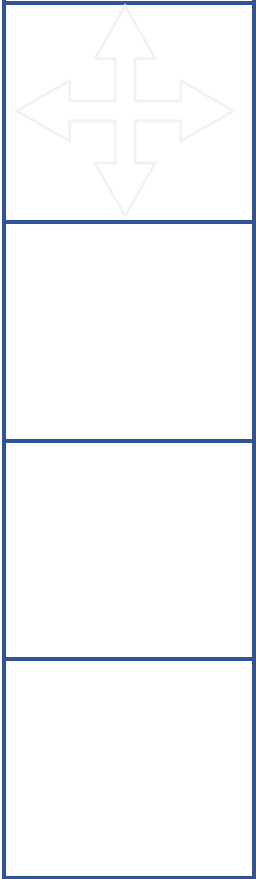

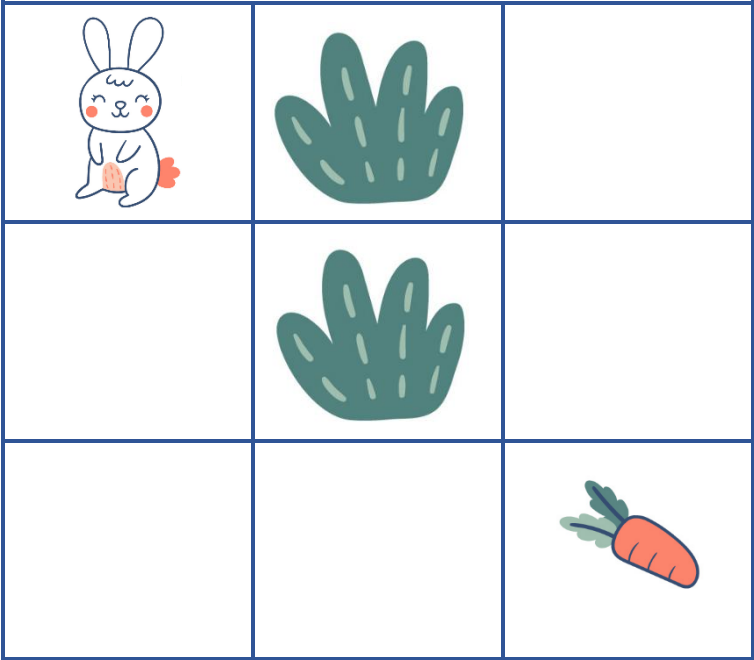

**Algorithm 3.** Now the bunny needs to make 3 steps, which way?

Put the arrows in the squares on the right.

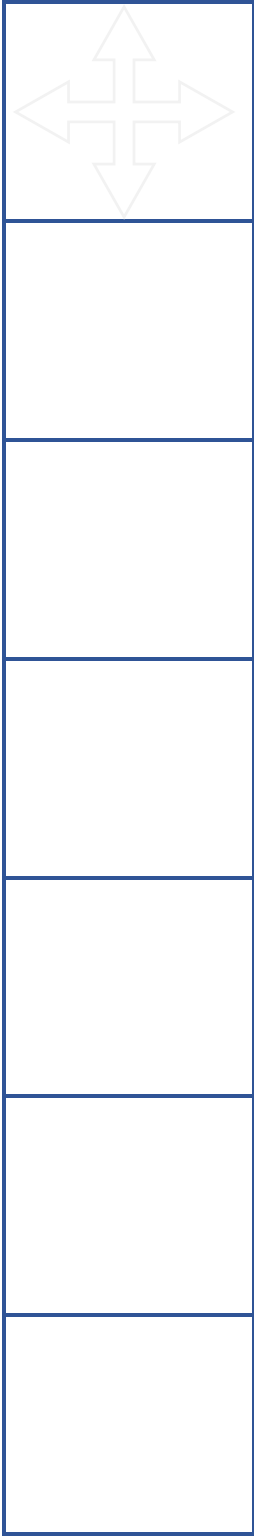

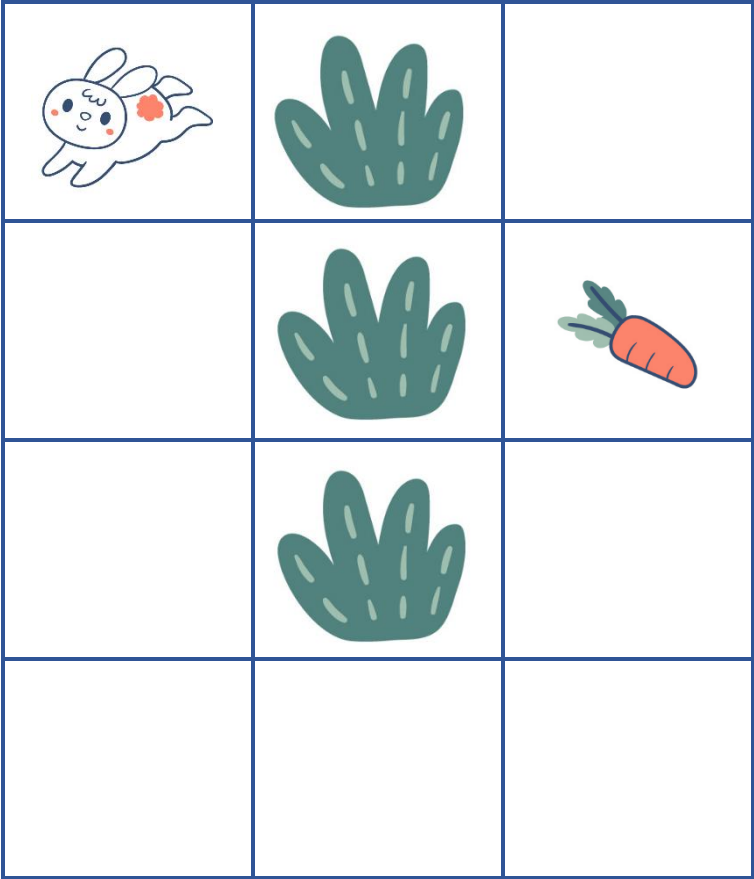

**Algorithm 4.** There are bushes on the way and the bunny cannot get through them, which way it has to go to get to the carrot? Put the arrows in the squares on the right.

Algorithm 4. There are even more bushes, how the bunny needs to go now?

Put the arrows in the squares on the right.

**Algorithm 5.** Bushes are still there, how can the bunny reach the carrot now?

Put the arrows in the squares on the right.
