

Algorithm 1. Which way does the squirrel have to go to reach the acorn?

Put the arrow in the square on the right.

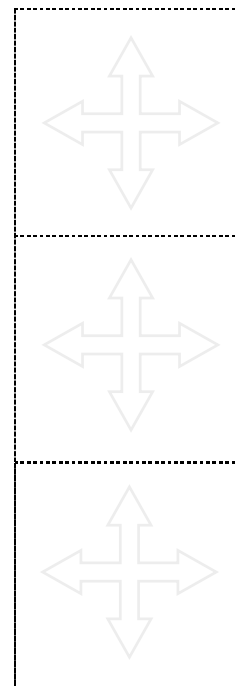

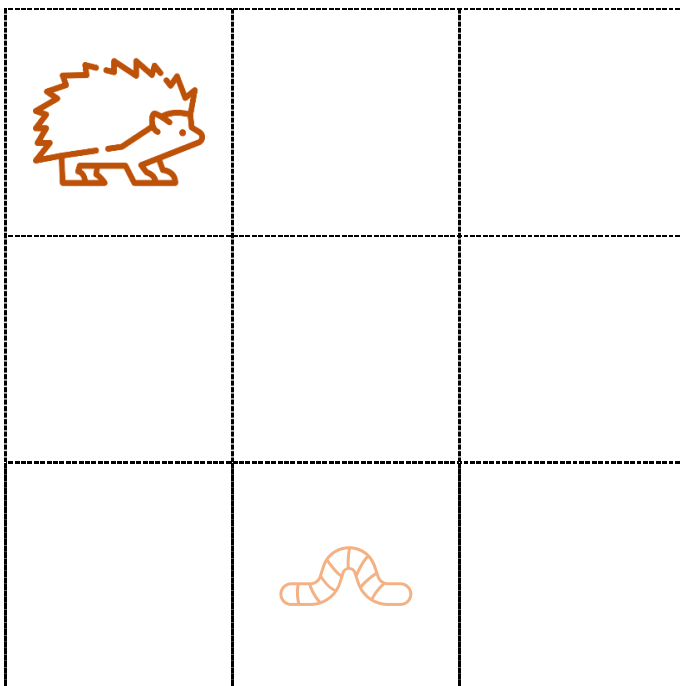

Algorithm 2. Now the squirrel has to take 2 steps, which way?

Put the arrows in the squares on the right.

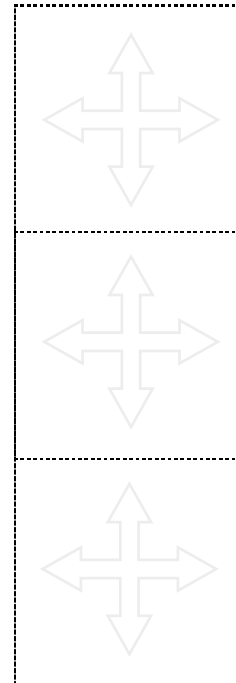

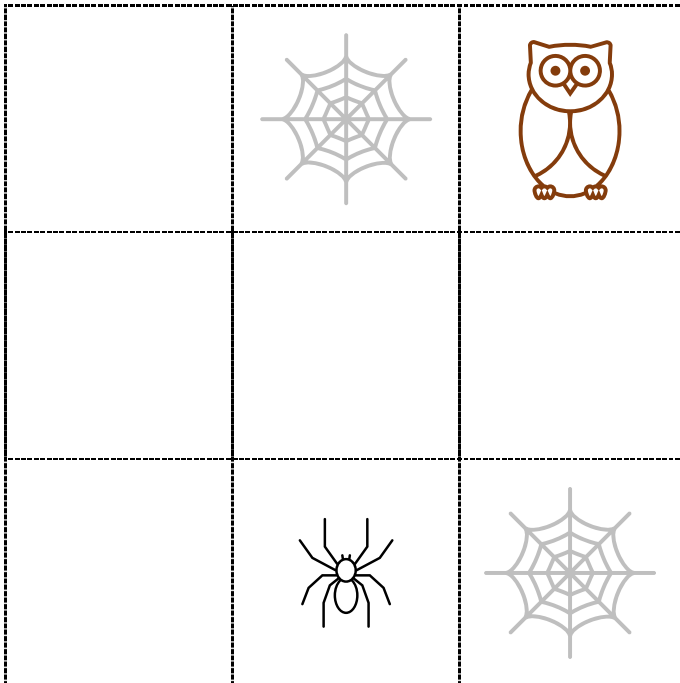

Algorithm 3. The hedgehog has to take 3 steps, which way?

Put the arrows in the squares on the right.

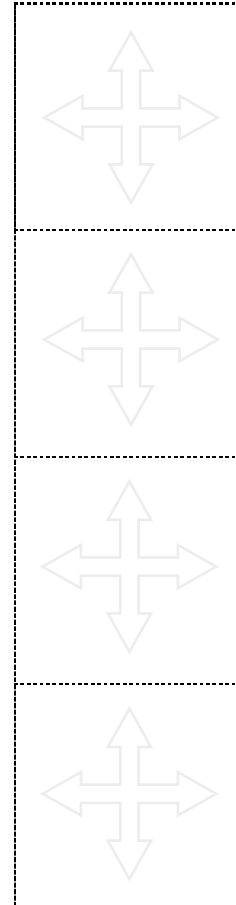

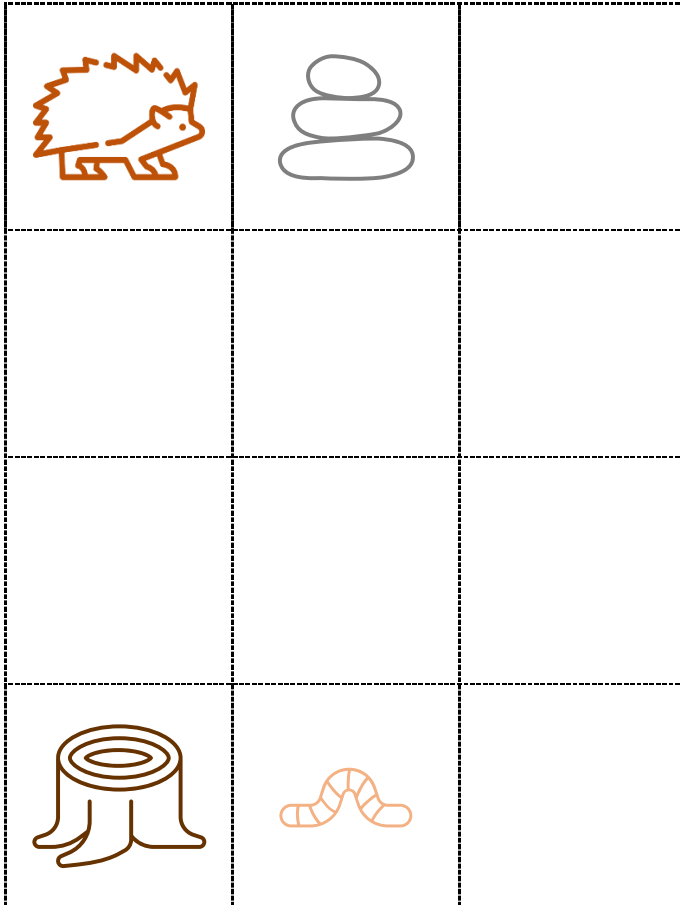

Algorithm 4. How is the owl going to reach the spider avoiding the webs?

Put the arrows in the squares on the right.

Algorithm 5. There are obstacles that the hedgehog has to avoid on his way to get earthworms, which way should it go?

Algorithm 6. The owl has to reach the spider, but it has to avoid the leaves, can you help?

Put the arrows in the squares on the right.
